rcclafferty.github.io

Software engineer with professional experience developing tools, full-stack applications, and backend services.

Computer Skills

Languages	C++, C#, Java, C, Python, Lua, MySQL, SQL Server, PHP, HTML5, CSS3, NodeJS
Developer Tools	Git, GitHub Actions, Docker, Docker Compose, Visual Studio 2022, PyCharm, Perforce, SVN

Professional Work Experience

Software Engineer – Web & Automation (Docker, React JS, Express JS, Python, PostgreSQL) June 2025 – Present
Guild of Beginnings, Remote

- Architected and developed software systems for business operations, educational instruction, and client management
- Engineered auto-judger for clients to validate learning objectives immediately, reducing iteration cycles by weeks

Software Engineer – AI & UI (C++) March 2024 – Jan 2025
Deviant Games (Contract), Remote

- Collaborated with cross-functional teams to design and implement gameplay AI and UI systems
- Initiated a code review process for all engineers to receive feedback and share knowledge across teams

Software Engineer – Call of Duty (C++, Python, Proprietary Tech) Oct 2022 – Sept 2023
Treyarch, Playa Vista, CA

- Engineered 22 gameplay features to empower players' experience in the proprietary Call of Duty engine
- Optimized workflow for my team and collaborators by centralizing information about a proprietary tool

Software Engineer II – Tools & UI (C#, C++, MS SQL Server) Dec 2021 – July 2022
AGS, Duluth, GA

- Designed a brand new Windows service to assist in legacy support for older servers
- Partnered with QA to improve UI and backend tooling, streamlining testing workflows for existing software suites

Software Engineer – UI (C++) March 2021 – Sept 2021
Naval Surface Warfare Center, Dahlgren, VA

- Implemented UI and backend fixes to mission-critical C++ code for government weapons systems
- Streamlined new hire onboarding documentation and exercises to improve future new hire experiences

Software Projects

Trial of Code Auto-Judger (React JS, Express JS, PostgreSQL, Docker) – Professional Project ([Link](#)) Oct 2025 – Present

- Engineered a full-stack, Docker-sandboxed platform to automatically evaluate client code submissions
- Designed modular, scalable question and test formats to support structured programming instruction

Wrath of Raoden (C#) – Side Project ([Link](#)) Dec 2020 – Feb 2023

- 2D roguelike dungeon crawler where the player must conquer randomized dungeons to save the world
- Managed a team of 3-6 developers through design, development, and testing with intent to publish

Game Dev Club Admin Database (Python, MySQL, HTML5, D3JS) – Academic Project ([Link](#)) Aug 2019 – Dec 2020

- Engineered full-stack application for hosting member information, and sending official club emails
- Developed web interface for sending emails and viewing member information

Education

University of Nebraska-Lincoln, Lincoln, NE Dec 2020
Master of Science in Computer Science CS GPA: 3.39

Kansas State University, Manhattan, KS May 2017
Bachelor of Science in Computer Science Minor: Music CS GPA: 3.26

Honors & Activities

Co-Founder, President – UNL Game Development Club Aug 2018 – Dec 2019
Eagle Scout Sept 2012
